WORLD'S LARGEST CONFERENCE FOR WOMEN ENGINEERS

WE18's theme, **Let's Break Boundaries** is rooted in the notion that all women engineers, young and old, veterans, those in the early stages of their career, and engineers still pursuing their collegiate degree, are breaking boundaries both personally and for women across the globe.

The conference itself breaks boundaries by being the largest gathering of women engineers across all major engineering disciplines. Facing challenges and breaking through barriers is something SWE has done since its inception in 1950. 2018 and WE18 will be no exception.

This historic South Minneapolis home was built in 1910 just before the Craftsman boom of the 20s. Original maple floors, mahogany staircase winding to the 2nd floor bedrooms and bath, cozy mint sun porch, and sprawling deck and backyard.
